DOLBY.

November 2016

Dear Dolby Customer

All Dolby® DCP series servers will be withdrawn from sale on November 14, 2016. Orders will be accepted until December 31, 2016 or until the existing inventory has been depleted, whichever comes first. Once the inventory of the DCP series servers has been depleted, Dolby will no longer offer a server that is compatible with a Series 1 Digital Cinema Projector.

As such, we request that you provide a last-time-buy forecast to your Dolby Account Manager as quickly as possible. This will help assess the required quantities of the DCP series servers for your needs.

The following DCP Series Server models are affected:

Dolby Part Number	Product Description
DCP4-DCI-2TB	DCP-2K4 W/3X 2TB RAID 5 SATA II

While Dolby intends to continue to provide repair services for products withdrawn from sale and to supply and support the other Dolby products mentioned herein, this announcement does not modify or guarantee repair services beyond existing warranties and terms and conditions.

Please contact your Dolby representative to address any questions or concerns regarding this announcement, or contact sales administration.

Sincerely,

Dolby Laboratories, Inc.
