DOLBY

Dear Valued Customer

Our acquisition of Doremi now enables us to offer you a full range of integrated, end-to-end postproduction, audio, and image playback solutions. Our combined resources will accelerate cinema technology innovations and bring them to your audiences more quickly than ever—helping you deliver even higher quality while lowering your overall costs.

Speed You Can Count On

Dolby® is pleased to announce the release of the latest addition to our Digital Cinema server product line, the Dolby Integrated Media Server IMS2000. Combining Dolby and Doremi technologies, the IMS2000 is a single-board solution that delivers faster ingest speeds and cost-effective reliability to save you time and money.

The IMS2000 will be available for purchase on July 27, 2015. Please refer to page 2 for key features of the IMS2000.

Concurrently, Dolby is announcing the withdraw from sale of the IMS1000. The IMS1000 will no longer be available for purchase as of July 27, 2015. All orders received on or after July 27, 2015 will be shipped as IMS2000.

Dolby will continue to provide support for the IMS1000 until July 2020, including spare parts, advance replacements, technical support, and access to software and firmware bug fixes.

We are available to address any questions you have regarding the above announcement. You may reach us via Dolby Sales at salesadmin@dolby.com or Dolby Customer Support at customersupport@dolby.com.

We value your partnership and loyalty. Thank you.
