

October 25, 2019

DOLBY LABORATORIES (SF)

Dear Customer:

In August of 2019, we began shipping the new, award winning CP950. This flexible, modular and cost-efficient Cinema Processor currently supports Dolby 5.1 and Dolby 7.1 installations, and its expansion slot will support upgradability to Dolby Atmos in the future.

This processor has many advantages over the Dolby CP750 that has been in the market for 10 years. Dolby has been so pleased with the worldwide acceptance and reliability of CP950 that we are now ready to announce the following product discontinuation dates for the CP750 Cinema Processor.

Withdraw from Sale	March 31, 2020 (all orders should be received at Dolby by this date)
End of Support	March 31, 2025 (HW/SW support not guaranteed beyond this date)

Orders will continue to be accepted until the WFS date above or until the existing inventory is depleted.

While Dolby intends to continue providing repair services and support for CP750 through March 31, 2025, this announcement does not modify or guarantee repair services beyond existing warranties and terms and conditions. Moreover, the information in this email is subject to change without notice.

Should you have any questions or concerns regarding this announcement, please contact your Dolby sales representative or [Salesadmin@dolby.com](mailto:Salesadmin@dolby.com).

Sincerely,

Dolby Laboratories, Inc.
