1 Supporting Documentation

Dolby provides a full set of documentation to support setting up and configuring the Dolby DAC3202.

- *Dolby Atmos Interface DAC3202 Manual* provides instructions for setting up and upgrading the Dolby DAC3202.
- *Dolby Atmos Cinema Processor CP850 Manual* provides instructions for operating the Dolby CP850.
- *Dolby Multichannel Amplifier Manual* provides information for using the Dolby DAC3202 with a Dolby Multichannel Amplifier.

2 Installation Instructions

To upgrade your DAC3202 software:

1. Obtain the .dlb upgrade file from Dolby Laboratories at www.dolbycustomer.com.
2. Copy the upgrade file to your local disk.
3. Click **Choose File** to browse to the upgrade file, then click the **upload** button.
4. Confirm the displayed upgrade file version, then click the **install upgrade** button.
If you need to cancel, click the **cancel** button.
5. Enter your password at the prompt (default password is *password*).
6. The system initiates the upgrade process, displays the progress, and reboots the DAC3202 when the upgrade is completed.

For instructions on connecting to the DAC3202, see the *Dolby Atmos Interface DAC3202 Manual*.

3 Dolby DAC3202 Component Versions

Component	Version
System Software	1.0.1.0
FPGA	301

4 Dolby DAC3202 Information Improvements

- Corrected an issue where sound may drop out when used with a Dolby IMS3000. We recommend that you use DAC3202 v1.0.1.0 as the minimum software version with an IMS3000.

5 Known Issues and Workarounds

- Power cycle may be required on some units after an upgrade.
