MODE _____ normal/eco/power
SERVICE _____ service information
ADVANCED _____ see user manual

9 Important Info

- Remove the lens before transporting the projector.
- To save lamp lifetime, first switch the projector to standby mode and wait two minutes, then switch off the main power.
- Ensure that the projector is operating with clean filters.
- Do not block the ventilation in- and outlets.
- Using the projector at a non recommended tilt angle will reduce the lifetime of the lamps or create unexpected behaviour of the unit.
- Laser light can cause severe damage to the DMD. This damage is not covered by warranty.

For more information and Maintenance Guidelines, check the Detailed User Manual on:
