# Software Release Notes

---

## Main Software v5.2.1(5)

This document provides information about Main Software v5.2.1(5). Main Software v5.2.1(5) includes ICP Software Release Prod 4.5.0 and LD Software Release EnigmaPro\_vP1.8(24).

To upgrade to Main Software v5.2.1(5), your projector must have Main Software v5.0.0(15) or later installed.

When you install Main Software v5.2.1(5), you cannot downgrade the software. However, you can upgrade the software when the next release is available.

## Affected products

Christie CP42LH

## Prerequisites

Some Media Server releases are incompatible with Series 2 projectors.

Upgrade your software if your Media Server software is older than the versions listed in this table:

Media Server	Versions
Christie	v1.6
Dolby®	v4.2.0.42
Doremi™	Software = 1.2.1-0 Firmware = 21.1Z
GDC	Release 7.7a-combined
Qube	v2.5.1.4
XDC	v5.5-3

## Fixed issues

A critical environment board (EVB) error message has been fixed. The hardware version mismatch error message now handles newer EVBs.

## Technical support

Technical support for Christie products is available at:

- North and South America: +1-800-221-8025 or [Support.Americas@christiedigital.com](mailto:Support.Americas@christiedigital.com)
